

SUMMIT

The precision expert

Summit, Altitude Capital’s most aggressive automated trading strategy, is tailored for investors seeking maximum returns through high-risk, high-reward Forex trading. Focused exclusively on AUDCAD/ NZDCAD / AUDNZD, Summit capitalizes on market volatility, leveraging downturns and major economic events to amplify profits. By increasing position sizes during significant market moves and employing a multi-level positioning and averaging down approach, Summit aims to maximize capital growth. While offering exceptional upside potential, it requires a high-risk tolerance and a long-term investment outlook.
